Membership NOT Required to Train Staff!

The Union Hall has been flooded with calls regarding “staff training on hourly jobs” and upcoming summer student training.

The Union and Company met recently and agreed that the membership will NOT be required to train staff on hourly jobs. If you are ordered to do so, please contact the Union Hall.

However, summer students are bargaining unit members and have rights under the Collective Agreement. The Union and Company agreed that if any members are required to train summer students a premium of 7% as per Article 24-LU-#2, 5(c) would apply:

“(c) The Union recognizes there may be a need for temporary trainers ... these temporary positions will be paid at the gangleader rate while they are performing these duties...”

We are Community, We are United, We are Unifor!
