TOWN HALL CONVERSATION ON POLLUTION

Smelter Emissions: What You Need to Know

Saturday, March 10 · 1-3 p.m. · 235 Enterprise Avenue

Rio Tinto's aluminum smelter has a permit to allow sulphur dioxide (SO₂) emissions of up to 42 metric tonnes per day, exposing workers and residents to a known health hazard.

The company says air dispersion is an acceptable way to deal with this pollution, but will monitor community health for five years.

What are your thoughts about local industry pollution?
