*Kitimat Smelter and Kemano Power Operations Workers*

## RATIFICATION VOTE RESULTS

On October 1, 2021, the membership voted 70.6% in favour of the tentative agreement. This brings an end to our 69 day Labour dispute.

We will be working hard to expedite the return to work timelines in the protocol and strategizing ways to help support our members that are unable to return to work right away.

Seeing how our benefits have been reinstated as of ratification, we have also reinstated pre-paid medical travel.

Any members wishing to sell their earned leave can do so by sending their requests through the Union hall office staff.

We would like to thank everyone for their support and solidarity throughout this time.
