COVID-19 VACCINES

The controversial topic of mandatory vaccines has been front and center as of late and as a result, the following motion was carried at our Executive meeting yesterday:

“The Executive supports the use of vaccines as a tool to fight COVID-19, furthermore, the Executive supports the individuals’ right to choose whether or not they take the vaccine”

We encourage everyone to follow all of the provincial health rules in order to stay safe and help prevent the spread of the virus.

YOUR UNION AT WORK!
